

OIC - 78-720

24 February 1978

MEMORANDUM FOR: [] Chief OPEI, DDCI/IC
FROM : [] Special Assistant for
Warning and Crisis Operations
SUBJECT : Visit of Ms. Dianne La Voy, Staff Member of the
House Intelligence Committee

STAT

STAT

1. Ms. La Voy interviewed me briefly on 7 February and at greater length on the 13th and 22nd. In the course of these interviews I gave my briefings on the Pueblo and the warning process. She also expressed interest in my roller chart on the Middle East war of October, 1973. She already had a copy of my post mortem derived from the chart.

25X1

[] (At that time she was working for the Church committee.)

2. I also showed Ms. La Voy the CONTEXT system which is now in the final test and training phase. She was most interested in our future developments of adding other visual communication systems to interconnect the Intelligence Community such as DISCON (Display Conferencing).

3. I found Ms. La Voy a most able interviewer. She had done her homework. She stated that the object of her interviews was to learn as much as possible about the status of the warning functions within the intelligence community. At the rate she is going she will end up one of the best informed people on that subject in town. She had an open minded approach. She was not looking for devils but was truly anxious to master a complex subject, which was most refreshing.

4. I am ready to go into details about these interviews. I can be reached during the four weeks on [] (CIA Operations Center).
